#### RULES OF THE FREE SHOW:

The Rules of The Free Show are tfsreadme.pdf and tfsreadmeII.pdf and tfsreadmeIII.pdf and tfsreadmeIV.pdf which function as 4 InterActing scripts. The first two parts of this 3D Game, consisting primarily of Science Fiction, Fantasy and Humor is actually Apotheum Colluseum Game Rules and Apotheum Colluseum Novel. The plan is to develop it into a 3D MMORPG. The medium of The Free Show is ONLY Internet, though you CAN play it around a table with dice or the NO DICE Rules.

SEE Apotheum Colluseum.

Age Recommendations are on my own two websites: <http://www.silverlingo.com> and <http://www.planesofexistence.eu>.

This written version is FREE. The retail version in the future is NOT FREE.

This document is tfsreadme.pdf and is protected by my copyright, registration and trademark. SEE the GPL

Open Source Programming Licenses; Version: 4.4 Final; Last updated: 25072010; unpure, unstable, NOT clean, quarky and buggy... [(:-)].

Note: Due to the fact, The Free Show was created and developed in the Netherlands, and I, god of The Free Show live in the Netherlands, it ONLY supports English. DO NOT translate The Free Show documents or any other documents which I have written. Also, The Free Show is not a local phenomena, it is a non-local Global Phenomena which applies to the entire Universe and all Reality.

GO TO (13) Ripping first. Or senseless violence for such matter; Jezus Christ loves us.

"All Hyper SOB Adults will be Banned, Banned Forever and/or Terminated!" says Mr. Newbie, Rules Lawyer.

Despite what you have seen and/or heard The Free Show actually loves Noobies, who are not per se Kids, do you kill off your consumer? One can also not agree with bogus statements, like, "This is not a Kid's game." If you have not made your 3D Game so that a Kid can still Play it then you have made it wrong.

SEE Age Recommendations and Degrees Of Difficulty.

"Why do you keep trying to negative framework me, bash my image, put me down, drag me down to your stupid lowest common denominator in the media and falsely accuse me with bad rumors?" says Mr. Newbie, Rules Lawyer.

(1) Extra Parts of The Free Show:

(A) Private Parts:

Private Parts is private consisting mostly of a very large number of jokes which

are NEVER listed for FREE in the fuckinreadme.txt and/or fuckinreadmell.txt and/or fuckinreadmelll.txt and/or

silverlingo.com and/or <http://www.silverlingo.com> and/or <ftp://ftp.silverlingo.com> and/or

<http://www.xs4all.nl/~cklpcc/FutureSite.htm> and/or

ANY other source and CAN ONLY be sold by me, Kyle Lance Proudfoot.

"Let's conduct free enterprise, shall we?" says Silver, High Wizard.

Clause: Kyle Lance Proudfoot = Dhr. Kyle Lance Proudfoot = Mr. Kyle Lance Proudfoot.

(B) My Lists:

My Lists are lists of already rich and famous people or computer programs primarily in the

entertainment and network genres. My Lists NEVER CounterAct™ ANY Rule of the Free Show.

I, Kyle Lance Proudfoot, am not a critic or self-proclaimed expert in any form or fashion, however

I have used and seen EVERY item listed in My Lists and have an MCSE diploma. Presently,

I have seen about 4500+ films thus the standard in My Lists is high and I will attempt

to keep My Lists updated as much as possible. My Lists are a w.i.p too, so don't take it

personally if you are not yet listed in My Lists.

"I am now educational!" says Chirpie Bird.

(C) My Near-Infinite Police Force:

This is a Secret part of the Free Show.

joke: I can't help being born white.

"We do it for big-G GOD always above us always looking down..." says Mr. Newbie, Rules Lawyer.

(D) Spellability:

An interesting problem is a lot of the my List's Voice's, Sound Effect Sample's and Visual Effect's are NOT spellable,

therefore progression in these will be slower since one CANNOT umlaut ubehaupt speak-in-Forensics language talk...

them needing clear obvious recognizable titles. For the same reasons The Free Show will NOT be translated; since Operating System's

CAN read from English to other languages, there is also know, need to translate the fuckinreadme.txt's with an automatic translating program:

Using this methodology The Free Show does allow the translation of ONLY the fuckinreadme.txt's into other languages for the pleasure of

another Culture/Civilization to enjoy. In no way, will this be the case for the purchasable Full Retail Version of The Free Show program

based on the fuckinreadme.txt's which I, god, Kyle Lance Proudfoot hope to make in the future.

"Patience is the better part of valour." says old-proverb.

(3) The Secret Formula to my jokes in The Free Show:

I have analyzed the Secret formula to my Jokes. Basically, I take anything and bend it out of proportion. This why I like extremities such as my Thoery # of Mutatious Glory Jokes. It is a lot more then just taking the micky out of something. So, the following will be probably a +-3X to the N pages of Jokes at mostly original combined with crap I've already splurged forth in my spontaneity, inspiratin, motivation, enthusiasm, sweat, blood, tears, strain, pain, harder work is better for you, migraines, kanker, in rain & snow & sunshine, throught the bitter cold, the blistering heat, determination, dedication, undying indominatable will, oops Splat!

"Stop analyzing so much, and enjoy it more!" says Mr. Newbie, Rules Lawyer.

(10) Roof's at Rock & Roll:

When the FS Party gets bigger, Members who do not say a word to me, god, Kyle Lance Proudfoot, CAN go on top of the Roof's and still not say a word to me, is silly, especially in the middle of Winter, at a max of 2 Hours in Summer 1.5 Hours in Spring & Fall .5 Hours in Winter; staying 'butt-naked' like some Crazy Canuck up there for longer time is ONLY Voluntary.

(12) Fan's:

Fan = FAN = Fanatical = FANatical = Follower.

"Mr. Newbie is also a fan!" says Mr. Newbie, Rules Lawyer.

The only way for a fan to meet me is of course when I go out but also  
by knocking on my door: Kyle Lance Proudfoot lives officially at:

Hendrik Zwaardecroonstraat 125, 2593 XM, Den Haag, The Netherlands.

Don't expect me to answer my door or ANY calls, since they're ALWAYS at an inopportune time.

Fanatical's of The Free Show are ALWAYS appreciated and regularly I call out,

"Thanks to ALL our Fanatical's!" or I call out, "Thanks to ALL my Fanatical's!" or I call out, "Thanks to our 1 Fan!" or

I call out "Thanks to my 1 Fan!!" or I cry out in joyous glorification, "Thanks to my Fanaticals, again!"

"If you don't want a Vampire in your house then don't let one, don't know a Fundamentalist, glugged, till ya met one,

don't forget your Civil War's, don't REMEMBER one, glug-glug, slash, rip, bite, chew, spit, hmmm... yuck!" says Revlis, Vampire Demon.

"Actually you don't taste so bad at all." says Revlis, Vampire Demon.

"Thanks to ALL my fanatical's again 'n again 'n again, yeeha, kaboom!" says Silber, Psionic Warlock.

TIP: Null-Voiding, nulling, is how you bust up the super Voice's and/or Sound Effect Sample's.

You can do it to and anyone in reality, just say "Null." to yourself and in the 3D Multilayer digital Sound's and/or digital Visual's.

HINT: Nulling CAN be used to dampen some irritating obnoxious excessively vibrating louder Member, then you, too.

(13) Ripping:

Ripping is fully supported by The Free Show !!

RIPPING = 'ripping' = Ripping = rIpPiNg = RiPpInG = rippin = ripping = rippin' = rippety = rippola = ripem = rippen = rip'n and

does NOT equal rip = RIP = Rip = rIp = 'rip'.

"I love my Mommy..." says Mr. Newbie, Rules Lawyer.

"Only my Mother loves me..." says Mr. Newbie, Rules Lawyer.

(B) Excessive Swearwords:

I don't tolerate the excessive usage of Swearwords especially, "Fuck You." by some abusive Members who I will continue to TERMINATE if necessary; abusive Members apparently see their lacking activity as acceptable or legal; in fact hacking is very illegal and is criminally prosecuted; we protect the children; for example we just criminally prosecuted some hackers at 10:10 AM on 18092003 in reality; the Free Show is all real except the Betting.

### (C) What Is Ripping?

What is 'ripping' is NEVER one of the Powers in fuckinreadme.txt and

ripping is taking over some Member's Voice, Sound Effect Sample's and/or Visual Effect's, Temporarily; quite hilarious, I think,

I do this rippin' with Textual, Telepathy, Verbal, and/or Visual Voice's, Sound Effect Sample's and/or Visual Effects.

Absolute coordinates T, X, Y, Z = Real coordinates T, X, Y, Z, -T, -X, -Y, -Z.

This is theoretically NOT ONLY in 4D.

More sportin' is NOT to hover at your choice of coordinates and not rip the other

Voice's and/or Sound Effect Sample's and/or Visual Effect's of the other Member by moving around in Open Air.

TIP: You might make an Enemy rippin too!

"Oops, over here now!" says Mr. Newbie, Rules Lawyer.

"No hover beasties, no hover beasties!" says Kyle.

"I say, you can do it too already, mate!" says Mr. Newbie, Rules Lawyer.

Null-Voiding = Nulling = nulling = Null = null = Nullin = nullin = Nullin' = nullin' = n =

Zero Point Field = Null Point Field = -n = Null-Point = null-point = Nullen = nullen = Null-n = null-n.

N = Potentiality.

"Woh... don't null my head, stupid humaaaann!" says Roary, Fire Dragon.

"This is opposite on purpose, Noobie!" says Mr. Newbie, Rules Lawyer.

joke: Now masturbate me slow & hard in my sleep, like a Noobie.

(16) Tooney Money:

In the Free Show: euro = Tooney Money. Tooney Money = euro.

€ = Euro's = euro's = Euro = euro = Euros = euros = Tooney euro's = Tooney Euro's = Tooney euro = Tooney Euro =

Tooney Euro = Tooney Euros = Tooney euros = tooney euro = tooney euro's = tooney Euro = tooney Euro's.

Tooney Euros are real actual and are NEVER in decimals.

(A) Transfer Of Tooney Euro's:

A transfer of Tooney Euros from a Member to another Member is a Tooney Euro Transaction.

A Tooney Euro Transaction is manually activated by a Member and automatically transferred by ONLY my Computer;

A Member does this by simply saying in a Session of The Free Show:

"I give X # of Tooney Euro's to Member X." or "I give XN # of Tooney Euro's to Member X." or "I give X # of Tooney Euro's to Member X." or

"I give XN # of Tooney Euro's to Member X." or

"I buy XN with X # of Tooney Euro's." or "I buy X with X # of Tooney Euro's." or "I buy X with XN # of Tooney Euro's." or

"I buy XN with XN # of Tooney Euro's." or

"I activate X with X # of Tooney Euro's." or "I activate X with XN # of Tooney Euro's." or "I activate XN with X # of Tooney Euro's." or

"I activate XN with XN # of Tooney Euro's.

A Member CAN use the interface buttons to transfer Tooney Euro's, too.

If you, a Member, lose Tooney Euro's because of a failed activation of anything in the fuckinreadme.txt's which is NOT in

the Rule specified then you get a Tooney Euro Refund equal to the cost of the activation which failed;

this is per per retro and is ONLY post-process.

REMEMBER: ONLY my Computer transfers ANY Tooney Euro Transaction.

REMEMBER: The actual interface for the Free Show has NOT been made yet and will also take some time...

(17) Area's:

An Area is defined by (A) Ranges and (B) Ranges.

If an Area gets excessively blasted by too aggressive hyper SOB Noobies then Mr. Newbie, just a 2-bit bot, Repeats his name continuously and certifies the Area as a Triple-X Area and/or Test Area; this is done after Mr. Newbie TERMINATES the disturbing Member.

The excessively disturbing Member = hacker = too many Repeat's, too many Swearword's, too violent, too sexually offensive, blatantly racist, disobeying any Rule of the Free Show and/or too many negatively associated emotional sounds emitting = +0ML Noobie.

The disturbing Member is automatically and immediately reduced to Noobie Rank.

Mr. Newbie automatically rips the disturbing Member's Voice's and/or Sound Effect Sample's.

If the Member is abusing the Member's Power, which is not in the spirit of the Free Show, and is immune to TERMINATION then Mr. Newbie is forced to PERMANENT TERMINATE the Member.

The PERMANENT TERMINATED Member will NEVER return to the Free Show and if necessary the Member will be criminally prosecuted at multiple recordings; this is automatically

Ordered by Mr. Newbie, Rules Lawyer. A good tactic at < Terminate is Mr. Newbie automatically Repeat's,

"Nee Noobie!" on the disturbing Member's Head.

"Don't just stand there my General's!" says Mr. Newbie, Rules Lawyer.

"Think of the children of the corn..." says Mr. Newbie, Rules Lawyer.

joke: You should fear a mutant god.

"I'm just goin' to rip the whole Area now..." says Roary, "ROAR!! Woommpaa... WOOSH!"

"I just fly away 'n leave the Area!" says a Faster Brownie.

REMEMBER: Open Warfare refers to 3D Online Gaming.

(E1) Philosophy: Steady as she blows, Haste makes Waste, it's like extended-play, I've earned enough Brownie Points,

War is always by necessity, the death of 1 Man is a tragedy, the death of 1 million Man is a statistic,

I don't need Worshippers, I need Followers into Battle, I'm a Warlock, what kind of answer do ya expect on your heads?

(E2) Psychology: NEVER extend yourself beyond your own limits, Know thy Enemies, Death to mine Enemies!, Stop pushing the limits foolish Mortals,

Do NEVER engage me, a Warlock, in a Battle of Will Power's, It is your own Fate to make, I am Constructor 'n I am Destroyer,

(E4) Political View: 30% Left and 50% Middle and 20% Right

(E5) History: I grew up next to a river with the happy forest in a small village when suddenly we were horribly attacked by invading

Mongrols, stupid low-life beasts, tearing our once known peace to oblivion! My Father and I escaped this barely feigning death in

the waters. We awoke dripping blood red and a horrible flash of bright white lightning exploded in my eyes as my Father stood up

and was caught by the look of wretched sadness in his eyes as his wet pointed dripped the destruction of innocence as his head

turned to look at the sodden burning ashes of our once beloved village. From such a day we trained daily in the art of warfare,

till once a time came again... this time we were ready for 'em!

(24) Religion's:

Religion is in fact not just a part of the Free Show: It has all and none of them.

I believe in a Big Yellow Duck. Really, try reading Theosophy; thank you very.

The Null Religion is most certainly and unpredictably a growin' trend and movement.

On the other hand Politics and Science are a part of the Free Show; don't over do it at excessive negativity or positivity.

GOD = The Creator of all realities interpreted by all Religions.

"The Creator argument is irrefutable." says Chirpie Bird.

Big Yellow Duck = GOD.

God = gods & goddesses already defined by many beliefs including Mythology.

REMEMBER: a god or a goddess is a Rank definition is fuckinreadme.txt and fuckinreadmell.txt .

a god and a goddess = god Mode = Mode of bots of Kyle Lance Proudfoot in the Free Show.

REMEMBER: god Mode is the Mode of bot's in fuckinreadme.txt and fuckinreadmell.txt and

I, me, Kyle Lance Proudfoot, god.

Mutant god = god Mode = bots of The Free Show = Kyle Proudfoot.

REMEMBER: Kyle Proudfoot is a lover +32ML god in Private Rank Range and

is activated too as a bot in a Session of The Free Show.

"Neigh you say, judging so quickly, like the fanatical reactionary you really are..." says Silber, Psionic Warlock.

"Ya sure, plima, it's a lot warmer where Allah is." says Silber, Psionic Warlock.

"I'm using the black moslim argument already, so don't rip me up..." says M. 'Nichtje' Kulamanji.

"Yes, but it's my superstition..." says Revlis, Vampire Demon.

(25) The Free Show Poly-tics:

(A) As a point of fact I am pro-canadian, pro-english, pro-american, pro-german, pro-dutch and pro-french, not per se in that order though it may fluctuate. Am I not a son of sam? I am definitely Canadian too.

We agree with the War on Terrorism. We love Open Warfare being 3D online games. The Police are the only difference. The Military is a necessity. However, the Laser Military of the future, especially in Space, is simply

far superior.

I, god of The Free Show, Kyle Lance Proudfoot, and The Free Show is politically middle. I can say we are a Neutral Non-Partisan Party who like primarily to do Parody, Satire and Influence.

SEE Degrees Of Neutrality.

"Don't over do anything at excessive negativity." says Silver, High Wizard.

"Actually, we're just ten times better than the Gestapo." says Silber, Psionic Warlock.

"Oh no, here comes another neo-nazi punk causing chaos and anarchy, we actually have great order in our Ranks, you fuckin' Noob!" says Revlis, Vampire Demon.

"A blow-up-doll and a joint takes too long..." says Kyle.

"Ik zou mezelf ook als ras bekriticeerd voelen..." says Silver, High Wizard.

"Whatever happened to the good will, good intentions, good faith, good luck..." says Silber, Psionic Warlock.

"When it comes right down to it, it's just the blood-thirst!" says Revlis, Vampire Demon.

"Laughing too much for some is cause I'm too hi..." says MAZZSilber, Mutant Shadow Warrior.

(B) All anti-species and/or anti-race Member's and/or Character Classes are automatically Terminated from the Free Show and are Enemies. Any

Racist Comment automatically results in your Ban Forever. A Racist Comment is an insult to the integrity of the multi-cultural cosmopolitan nature of The Free Show and the Members of The Free Show.

Also Discrimination, Insult's and Provocation's are NOT Tolerated. Get Terminated and/or Permanent Terminated.

SEE Filter Guideline.

(C) Violence in its many forms is not tolerated and the Free Show is, in fact, associated

with Peace, Love and Happiness. 3D MultiLayer Sound is entirely relative: Get Kicked automatically for too much volume.

If your violence is relatively excessive to the Rules of the Free Show get Banned.

If your violence continues after being Ordered to stop by a higher Ranking Member get Banned Forever, for it is Insulting too.

The Free Show considers soft violence in the Rules of the Free Show totally acceptable, for look at almost EVERY Film. Also, look at blood and violence levels in many 3D Games.

(D) Open Warfare is the excellent application of Voices and Sound Effect Samples and Visual Effects to blatin' the hell out of each Member in an Area. If you don't like it stick earplugs in or move to Iran...

Open Warfare is 3D online gaming.

\*See (36) Open Warfare Rules in fuckinreadme.txt\*

"We came from the land of the ice & snow, yahh, so we blow... up computers..." says Lance.

"I can come by and do your computer, too..." says Lance.

"We're just gonna' sit here with our laser defense system." says Mr. Newbie, Rules Lawyer.

"FEED ME!" says Revlis, Vampire Demon.

"Feeeeeed meee your Life Energy, Noobie Human..." says Revlis, Vampire Demon.

"And, man is most certainly not human!" says Roary, Fire Dragon.

"Oooh, now I'm goin' to go see porno on Internet... kaboom, crash." says Mr. Newbie, Rules Lawyer.

"In full throttle sm outfit with whip standing before porno on Internet, then it hangs..." says Silber, Psionic Warlock.

"Celebrate! The war is over! Two days later..." says Silber, Psionic Warlock.

"Celebrate, sic, the ware is over... then Alien's really do show up." says Revlis, Vampire Demon.

(E) Mut Point's are political statements which don't have ANY argument for or versus them. For example, no one is Racist

is due to the ever-presence of such a Race on our Planet Earth, one can then ONLY go into particular issues concerning such.

If ANY Member in a Session of the Free Show which is busy with politics states somethin and it does not get the Member

Kicked, Banned and/or Banned Forever or worse then the disin' Member can say "Mut Point" to the Member; this results in neither loss nor gain for either Debator.

A Debator is simply a Member of either side of the debate.

Mut Point's at no max # of in a Session of the Free Show.

"Don't want a Vampire Value in your House then don't let one,

Don't know a FUN-Duh-Mentalist till ya met one,

Know your civil rights, don't forget one..." says Consolidated.

(F) Really, the point is more the following list of Political Rules, basically how a Member should politely conduct oneself:

My List of Political Rules is setup similar to the unbeatable Ferengi List.
