The Hells of some Futures.

There They ride silverglinting-
mechanizedautolaserpistols at Theiir sides. They Love
just-left-their magneticfield domed<|T|3λ.

They are charging in steel/plastic-compunded-
aluminum-windowsspacevehicles. Charging? No, They were
taken-out by the automated- highly-paranoid-
computerizedlaserdefencesystems That richbrat was
then brutally-quickly deadly&silently removed.

This spauked antagoniom and several laids by
furiouspirotes. We, the "landingscontrol" were
working on routine inflightairtaskforce, just cause
we thought |t was a dippynome which was hard to
remember. .

But it wasn't The end, it was the beginning of
the end.

The originally assaulted like-too-many desmiss
were triggered to inspire utter-unendinghate. For

this caused jeopardize our entire Future. We are
sarely pissed at being wrongly attacked.
